1. The following is the organization plan and personnel of the Transformatorwerk (Transformer works) Berlin-Oberschöneweide (TRW). Included are the customary abbreviations used for all departments.

Department	Abbreviation	Official
Works Director	D	Hirsch
Assistant	DA	Wilfling
Plans Division	PA	Doncker
Deputy		Bauer
Assistant	PAA	Pengande
Plans for production and materials	Pap	Wolnaupe
Plans for production	Pp	Blum/Rohde
Plans for materials	MP	Trayar
Capacity plans	Kp	
Labor force plans	Ap	Zinkert
Development plans	Ep	Monik
Matters pertaining to improvement		
su. actions	VV	Rothe
Finance plans	Fp	Streichhahn
Technological plans	Tp	Timmermann
Finishing plans	Fb	Stadthaus
Initial estimates	Wdk	
Estimates of bills	Ok	Rathke
Statistics	Sta	Scholl
Organization	Op	Kaumanns
Organization review	Op/Rv	Pas
"Cultural director"	CD	Teglow
Personnel	Pc	Levi
Personnel division	Pca	Schulz
Sponsorship of activists and working		
intelligentsia	Pda	Clatzer
Training and instruction	Sch	Hopert

Plant Management

Signed Hirsch 25X1B

2.

3. The Soviet Control Commission group has left the TRO. They were Semin (fnu), small stocky blond Russian; Goldstein (fnu), German, formerly with AEG; Baeumel (fnu), German. Both Germans are employed at the EA / Elektrotechnische AG in Berlin-Treptow.

4. The following priorities are in effect at the TRO: 1. Reparations, 2. Wismut AG, 3. Elektrochemisches Kombinat Bitterfeld.
5. The paper, 15 microns thick and 1.9 meters wide, used in the transformers is supplied by the Fein- und Zigarettenpapierfabrik AG, Köbeln bei Muskau. Paper, 7-8 microns thick and 4 meters wide, is also obtained from Osnabrück (BOZ)\* (sic). The most severe shortage is still in aluminum foil, which is obtained exclusively from the west.\*\*
6. The following persons took part in discussions of TRO with Wismut AG concerning transformers: the Russian chief electrical power engineer Karpov (fnu) from Wismut; senior engineer Steinbach (fnu), German; chief engineer Oehme (fnu), German from Energiebezirk Ost; Pilz (fnu), German from Energiebezirk Ost; technical expert Haeblerle (fnu), German, from the Sachsenwerk; held in high esteem by the Russians.
7. The attached photograph depicts a 100 MVA (thousand volt ampere) transformer, completed several months ago at TRO.

25X1A \* [REDACTED] Comment: This is possibly "Hartzgas", resin gas.

25X1A \*\* [REDACTED] Comment: [REDACTED] a complete embargo on aluminum foil would effectively stop the operation of the entire East Zone electrical industry.
